

# Callisto lines

*Callisto Lines icon*

*Add New Callisto*

*Line icon*

In an environment with Callisto or if the Callisto credentials are provided, you can add additional Callisto lines to be surveyed (e.g. a mobile number or a fax number). Click on the button Callisto lines, the currently available Callisto lines will be listed. Click on the Add New Callisto Line icon and fill in the following information:

- Line: the phone or fax number that should be surveyed.
- Name: a descriptive name for the line.

Click on Ok to save the newly added Callisto line. Once a Callisto line has been added, you can assign users to it, which then will be visible on the COC Client of the respective users.

For more details, see [Assignments](#).
