

Alarm reports

The *Alarm Reports* tab lists every occurrence when an alarm was triggered.

Alarm ID	Group	Message	Activation time ^	
335511	010	Test alert	05.02.2025 11:00:31	
335510	010	Test alert	07.02.2024 11:00:16	
335509	719	Engine system error!	22.07.2023 15:19:20	Destinations...
335508	010	Test alert	01.02.2023 11:00:34	
335507	460	Nav system warning!	24.10.2022 04:24:07	

To show the alarms triggered during a certain time, set the time frame with the two date/time input fields on the top left corner. Selecting a group from the Group drop-down menu, only alarms of the selected group will be shown. With the search field, alarms can be filtered by any available metadata. Clicking the buttons labeled CSV or Excel will export the current report listing in the respective file format.

#	Destination IP	Description	Device Type	Received
1	172.17.16.12	1025	Cisco Phone	✓
2	172.17.16.13	1026	Cisco Phone	✓
3	172.17.16.14	1027	Cisco Phone	✗
4	172.17.11.5	General	SIP Phone	✓

Clicking on the button labeled Destinations... will show all the destinations to which the alarm was sent; the symbol in the column Received indicates whether the destination actually received the alarm message.
